Dear Mrs. Owens:

It was a pleasure to see you again last October. I do hope that you are re-adjusting yourself to the winters of Chicago.

I am enclosing a detailed inventory of the trophies and awards that arrived last July. The delay in creating the inventory was caused by the volume of material and the fact that part of our building was undergoing extensive renovation, preventing us from working in those areas.

I hope you find the enclosed satisfactory. Under separate cover, I will be sending you a videotape of the collection itself. This is the first time the Archives has done this. Essentially, a potential user could read the inventory, and ask to see the material on videotape by referring to a box number and a meter number provided by the inventory. By "freezing" the frame or using a frame-by-frame advance, the patron could view the items at leisure and in detail.

I thought you might enjoy having the opportunity to view the awards yourself without having to worry about security or space.

Sincerely yours,

Raimund E. Goerler, Ph.D.
