Dear James:

Thank you so much for your generosity and hospitality during our visit to Moulton and to the museum. We couldn't have asked for more consideration.

The beautiful Jesse Owens Museum shows your tireless and, yes, heroic effort. You are to be heartily congratulated, as is Mr. Thurman White, who seems to want little or no credit for his magnificent and inspirational work. He is a shining example to us all. It must be very satisfying to know that the work that you and he have done along with so many others who gathered round you have done, will bring knowledge and goodwill for generations to come.

Along with me, my team of Bryan Delancey and Sam Medford send their appreciation and congratulations. Our hats are off to you-- and we will be sending a box of them to you soon!

Sincerely Yours,
